### Clean Up Portland Harbor

Letter

Dr. Ms. McCarthy, The proposed cleanup of the Portland Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic. A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that: Moves quickly and sustainably reduces contaminants causing harm to Willamette and Columbia River resources. Includes ongoing monitoring and cleanup upriver and downriver from the site. Contributes to healthy fish that are safe to eat for all people. Holds polluters accountable for creating a safer Portland Harbor. These elements get us closer to the plan our communities deserve. And I deserve a clean, safe Portland Harbor. \*Submitted during the comment period between June 9, 2016 to August 8, 2016 regarding the EPA's Portland Harbor Feasibility Study and Proposed Plan.

I strongly request that the EPA removes ALL of the major portions of contamination by dredging --- that is ALL 1000 acres.

Secondly, I strongly request regular monitoring while the clean up is occurring.

Third, as a tax payer I demand that you hold strong to the principle that the "polluters" pay for the clean up.

Fourth, The ultimate goal and end result should be a healthy fish population so the current fish consumption advisory be removed from this section of the river.

As a taxpayer I expect competence and high quality.

Respectfully,
